Summer 2026 at Roosevelt Boys & Girls Club

Summer Hours

Monday-Friday

12pm-5:45pm (members must be picked up by 6pm)

We are closed: June 1, June 19, July 3rd and August 24th-28th

Sunscreen: Members are required to wear sunscreen to go outside on days with high UV index. If you have opted out of sunscreen use on your child's registration, we will not require sunscreen use. If you are not interested in having your child wear sunscreen, please speak with our Check-in-Monitor, Abigail, so she can help you to update your child's account preferences.

Water Wednesday: We are planning on water themed activities every Wednesday. Some water activities will include slip and slide where members will get completely wet. Please bring a change of clothing or swimwear if your child would like to participate in Water Wednesdays. Water Wednesdays activities may have to be cancelled due to extreme heat or rainy weather.

PAKRAT Bus: Roll and Read Bus is a Roving Library that members can check-out books from throughout the summer. There are not late fees and no penalties for books that are not returned. The goal is to encourage more reading by children throughout the summer

Art Program: Along with other art mediums, Cortland will be exploring 3-D Modeling, Working with air dry clay, and photography throughout the summer

Reading and Academic Program: Our Club has weekly reading goals throughout the summer. Each month that a member meets their goal, Miss Stacy will reward with an ice cream incentive. We will also be learning about National Parks and using Minecraft: Education. Miss Stacy is also looking forward to starting knitting and crochet groups.

Life and Workforce Readiness Program: We will offer workforce readiness experience opportunities for all ages. Andrea will also be starting Dance Groups this summer to prepare for Winter Showcase Performances

Make it Monday: Features a DIY activity for members to make

STEM Thursdays: We will have STEM programs throughout the summer, but Thursdays will feature an **Ultra-Fun** STEM activity
